Overview of the Dutch property market

2023

NVM Housing Quarterly Statistics

Netherlands | quarter 2 of 2023

The number of transactions shows how many houses were sold by NVM property brokers in one quarter.

The transaction price is the (median) sales price of all houses sold in one quarter.

The square metre transaction price is the (median) square metre price of all houses sold in one quarter. The sales price is divided by the number of square metres of usable living space.

The time to sell (also referred to as the transaction time) is the time presented in days between the moment a house is put up for sale and the date of sale, with the date of the full signature of the deed at the property agent's office being the guiding factor.

Number of transactions	2022-2	2023-1	2023-2	%-jr.	%-kw

NVM Housing Quarterly Statistics

Netherlands | quarter 2 of 2023

Property availability shows the number of houses available by NVM property agents at the end of the quarter.

The asking price is the (median) asking price of all houses available at the end of the quarter.

The asking price per square metre is the (median) square metre price of all houses available at the end of the quarter. The asking price is divided by the number of square metres of usable living space.

The validity of the offer shows how many days houses have been available for sale. It is about the difference in days between the moment a house is put up for sale and the last day of the quarter.
